PROFILE

Front-end and mobile engineer with 6+ years shipping React, Next.js, and React Native products - from SME ops tools across Africa to App Store and Google Play releases. Strong in TypeScript, API integration, state management, debugging, and production delivery. Roles often ran concurrently (full-time, contract, and internship) while studying.

WORK EXPERIENCE

Senior Mobile Engineer

2026 - Present

August Techie / Kindrel - Remote - India - Full-time

- Leading React Native delivery for Kindrel - family tree, community spaces, chat, events, and shared savings on iOS and Android.
- Shipped App Store and Google Play releases using React Native CLI and Expo, with Axios, GraphQL, TanStack Query, and Redux Toolkit.
- Improved release quality through React DevTools / Chrome DevTools debugging and tighter design-to-dev handoff.

Senior Front-End Engineer

2025 - 2026

BrandDrive - Remote - Nigeria - Full-time

- Part of the team building BrandDrive's SME operating system across Africa with Next.js - powering invoicing, POS, inventory, and payments workflows.
- Consumed REST APIs for product data and workflows, and built form-heavy flows with Formik for reliable user input.
- Partnered with product and design on production delivery and debugging across the web experience.

Junior Front-End / Mobile Engineer

2023 - 2025

Oneway - Remote - Nigeria - Full-time (concurrent with other roles)

- Shipped React Native (Expo / CLI) and web UI for Oneway's AI-assisted inventory, POS, and self-checkout retail suite.
- Owned storefront, inventory, and payments flows with Axios, TanStack Query, Formik, and React Context.
- Supported App Store and Google Play releases and resolved production issues with React DevTools.

Front-End Engineering Intern

2022 - 2025

IBX Exchange - Remote - Nigeria - Part-time / contract (concurrent)

- Part of the team building the IBX website plus web and mobile trading and wallet apps in React and Bootstrap, consuming REST APIs with React Context across the platform.
- Improved form UX with Formik and raised front-end reliability through ongoing debugging and performance cleanup.

Front-End Engineering Intern

2020 - 2023

Ventlio - Hybrid / Remote - Nigeria - Internship

- Built early Ventlio web and mobile UI in React, establishing reusable patterns for forms (Formik) and API calls (Axios).
- Grew into production ownership - resolving issues, refining UX, and keeping the front-end codebase maintainable.

Front-End Engineering Intern

2023 - 2023

Osmagin Developers - Remote - Nigeria - Internship

- Delivered the Oitem Logistics site and client-facing logistics UI in Next.js for work orders and tracking.
- Consumed REST APIs for logistics workflows and built Formik forms, then polished production-ready Next.js UI with the Osmagin team.
